ADDENDUM #1
TO SPEC. 06-103
CONSTRUCTION CONTRACT
MANAGEMENT SOFTWARE SYSTEM

Addendum #1 to Spec. 06-103 for Construction Contract Management Software System originally to be opened on Wednesday, April 12, 2006 at 12:00 noon.

We have received the following questions on the above referenced project:

Q-1. How many users will City of Lincoln need to access the software system? How many named users and/or how many concurrent users?
A-1   50 named users and 30 concurrent users. We prefer a site license, numbers can and will fluctuate.

Q-2. What, if any, GPS solution does City of Lincoln currently have implemented?
A-2   Currently we do not have this implemented for Construction Contract Management, we have budgeted a large amount to purchase some Survey grade Trimble units this Fall for our Survey Department. We do have a GPS functionality at the Landfill and in the Watershed Management Department.

Q-3. What, if any, Asset/Maintenance management software solution has City of Lincoln implemented?
A-3   The Water Department uses the Hansen System. All other areas, including Wastewater, Signs, Signals, Pavement Management use Carte'Graph.

Q-4. What, if any, Project Scheduling Software solution has City of Lincoln implemented?
A-4   MS Project 2003 Enterprise Edition.

Q-5. Can you provide samples of reports City of Lincoln is required to provide to Nebraska Department of Roads and/or any other funding agencies?
A-5   A copy of the entire proposal book with specs & plans go to the State and then a copy of the bid tabs after the letting, the other documents for dbe, etc. are on forms that the State provides.

Q-6. Section 9.5.1 of the proposal requests completion of the qualification table, qualification checklist and the explanation register. Are the table and checklist the same as the supplemental questionnaire in the RFP, or are they separate documents? If separate, please advise where they can be found in the RFP document?
A-6   Delete the reference to the qualification table and section 9.5.

Q-7   Item 54 in the Supplemental Questionnaire requires "Ability to set contingencies". Is this a question in the general, or are there specific contingencies for which you want set? If specific, please describe these contingencies.
A-7   General

Q-8 **Section 9.2.1.2 - should the organizational chart be for the completed projects or for the proposed project for City of Lincoln?**
A-8   It should be the people who would complete the project.

Q-9 **Please clarify the difference between the information requested in Section 9.2.1.1 and 9.2.2.**
A-9   This seems clear to us. We don't know what to add.

All other terms and conditions to remain unchanged.

Dated this 22nd day of March, 2006.
